RELIABLE **DEHYDRATED ONION, GARLIC & GINGER**
FOR FOOD MANUFACTURERS & BULK IMPORTER

Supporting food processor,
seasoning brands & bulk
importers with reliable quality,
predictable timelines, and
export-ready documentation.

- *Consistent specifications*
- *Export-ready packing*
- *Batch-wise quality control*

ABOUT US

Built to Reduce Sourcing Risk

Importers and food manufacturers often face inconsistent quality, unclear specifications, and unreliable supply.

Our operations are structured to reduce these risks through controlled sourcing, standardized processing, and batch-wise quality control.

What We Do

We supply dehydrated onion, garlic, and ginger to:

- Food processors
- Seasoning and flavour manufacturers
- Bulk ingredient buyers across export markets

How We Work

- Controlled sourcing and hygienic processing
- Focus on moisture control, particle uniformity, aroma retention, and shelf stability
- Lot-wise handling to support consistent, repeatable performance

Who We Work Best With

- Buyers seeking long-term, dependable supply partnerships.
- Businesses that value clear specifications and predictable supply.

Our Commitment

- Export-ready packaging
- Clear, professional communication
- Consistent specifications to support ongoing production needs

PRODUCT PORTFOLIO

Our core export product range includes dehydrated onion, garlic, and ginger processed for consistent performance in professional food applications.

Product Categories

- **Dehydrated Onion** – Flakes | Kibbled | Minced | Granules | Powder
- **Dehydrated Garlic** – Flakes | Minced | Granules | Powder
- **Dehydrated Ginger** – Slices | Granules | Powder

Application Focus

- Food processors
- Seasoning & flavour manufacturers
- Bulk ingredient buyers

Extended Range

- Additional dehydrated vegetables
- Spray-dried products

Available on request

Customization

- Mesh & cut size
- Moisture level
- Export packaging

Customization subject to technical feasibility and order quantity

DEHYDRATED ONION

Product Overview

- Processed from carefully selected fresh onions
- Controlled dehydration to retain natural flavour & colour
- Batch-wise sorting and stringent quality checks ensure consistency

Product Forms

Flakes

Kibbled

Powder

Granules

Minced

Technical Specifications

- Mesh Size (Powder): 60 / 80 / 100 (customizable)
- Moisture Content: Max. 6–7% (as required)
- Colour: Natural off-white to light cream
- Aroma: Typical onion profile
- Shelf Life: 12 months (under recommended storage conditions)
- Microbiology: Conforms to importing country regulations

Applications

Seasoning blends

Sauces & gravies

Ready-to-eat meals

Ready meals

Soups & instant mixes

Storage Conditions

- Store in a cool, dry place
- Away from direct sunlight and moisture

DEHYDRATED GARLIC

Product Overview

- Controlled dehydration to retain natural garlic aroma
- Uniform granulation and batch-wise consistency

Product Forms : Flakes | Minced | Granules | Powder

Technical Specifications

- Mesh Size (Powder): 60 / 80 / 100 (customizable)
- Moisture Content: Max. 6–7% (as required)
- Colour: Natural off-white to light cream
- Aroma: Typical garlic profile
- Shelf Life: 12 months (under recommended storage conditions)
- Microbiology: Conforms to importing country regulations

Applications

- Seasoning blends
- Sauces and soups
- Instant mixes
- Marinades
- Processed food applications

Storage Conditions

- Store in a cool, dry place
- Away from direct sunlight and moisture

DEHYDRATED GINGER

Applications :

- Seasoning blends
- Sauces and soups
- Instant mixes
- Beverages
- Processed food applications

Product Overview :

- Controlled dehydration to preserve natural aroma and colour
- Batch-wise monitoring for stable moisture and quality consistency

Product Forms :

Slices

Granules

Powder

Technical Specifications

- Mesh Size (Powder): 60 / 80 / 100 (customizable)
- Moisture Content: Max. 6–8% (as required)
- Colour: Natural light cream to pale yellow
- Aroma: Typical ginger profile
- Shelf Life: 12 months (under recommended storage conditions)
- Microbiology: Conforms to importing country regulations

Storage Conditions

- Store in a cool, dry place
- Away from direct sunlight and moisture

QUALITY & PROCESS

Our quality and consistency are maintained through a defined processing and quality control system designed to meet the requirements of professional food manufacturing and export supply

Raw Material Selection

- Fresh onions, garlic, and ginger sourced from approved suppliers.
- Pre-processing inspection for quality and suitability.

Sorting & Sizing

Colour and size sortex for uniform appearance and consistency.

Quality Assurance

Batch-wise checks for moisture, mesh size, and visual parameters

Processing & Dehydration

- Controlled dehydration to retain natural aroma, flavour, and colour
- Moisture levels monitored for shelf stability

Grinding & Granulation

Processed under controlled conditions to meet required mesh sizes.

Hygiene & Food Safety

Hygienic, food-grade handling throughout processing

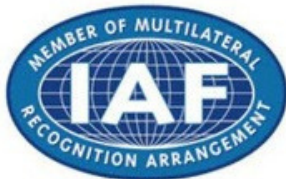

Traceability

Lot-wise identification maintained from raw material to dispatch

CERTIFICATES

MSME
MICRO, SMALL & MEDIUM ENTERPRISES
सूक्ष्म, लघु एवं मध्यम उद्यम

ShopAct Registration
Maharashtra Government

PACKAGING & STORAGE

Yashori provides high-quality, export-ready packaging solutions engineered to preserve product integrity, maintain freshness, and meet the stringent requirements of international trade. Our packaging systems are designed to ensure maximum protection, extended shelf life, and safe handling throughout the supply chain.

Packaging Options

Pack Sizes: 5 kg / 10 kg / 15 kg / 25 kg

Inner Layer: Food-grade poly liner to prevent contamination and moisture absorption

Outer Layer: Kraft paper bags / HDPE bags for enhanced strength and protection

Suitable for palletized, containerized, and bulk export shipments..

Packaging System

Designed to protect product quality during long-distance export shipments.

Multi-layer packaging to minimize moisture ingress, oxidation, and contamination.

Suitable for long-distance sea and air shipments

Clear labeling maintained for identification and traceability

Country of origin

Storage instructions (as per international norms)

Shipment & Handling

- Suitable for palletized and full container shipments.
- Optimized for long-distance sea freight
- Batch identification maintained for traceability

Shelf Life & Storage

- Typical shelf life: 12 months under recommended conditions.
- Store in a cool, dry, well-ventilated area
- Protect from moisture, heat, and direct sunlight

PARTNER WITH US

Let's Work Long Term

Built on clarity, consistency, and trust — not one-time transactions.

Who We Work With

- Importers with in-house distribution
- Distributors supplying manufacturers or wholesalers
- Bulk buyers planning repeat, long-term sourcing

What Partners Can Expect

- Consistent batch quality
- Export-ready packaging
- Clear documentation
- Predictable timelines
- Responsive communication

Our Partnership Model

- Consistent product quality
- Clear, professional communication
- Long-term supply reliability

How We Start

- Trial order to align on quality, specifications and logistics
- Successful first shipment → structured, predictable supply

Our Focus

- Transparency
- Continuous improvement
- Long-term, growth-oriented partnerships
